**This Month—**

**Louis Ramirez**

Louis first came to Nutley Supply in 2006 as the Hillsborough Territory Manager. He left to work for another supply house and returned as the Paterson manager in July 2009. As a result of the flood, he is now working out of Clifton.

Louis has a 7 year old daughter and enjoys outdoor activities like hunting and fishing!

Volume 9, Issue 10

October 2011

**Paterson Is Closed Indefinitely Due To Flooding !**

On August 30, water from the Passaic River filled the Paterson basement completely and rose several inches on the main floor. The branch is closed indefinitely and we have moved the operation to 50 Page Rd, Clifton.

Our plan is to locate a temporary counter in Clifton and ultimately put an addition on the building.

Our Clifton Branch is not far from Paterson, so come over and see us. You can contact Louis in Clifton at 973.470.8844, and Chris on his cell at 201.290.2640 or Montville (Boonton), 973.331.7984 or Nutley, 973.667.6880..

**This line includes:**

- Residential oil fired water heaters
- Residential & commercial indirect water heaters

**Bradford White Highlights:**

- Made in America
- Employee owned company
- Icon System™ gas valve
- Greater customer service
- They sell through wholesalers only—no box stores
- Factory installed Hydrojet® Total Performance System
- Brass drain valve

Heat Pump Troubleshooting	Nov 8, 2011	Clifton, NJ
Electricity For HVAC Technicians	Dec 1, 2011	Clifton, NJ

Register with EHCC directly: Phone 800.247.6547, Fax 856.608.0923 or E-mail [registrations@eh-cc.org](mailto:registrations@eh-cc.org)

### American Standard Extended Warranties

Did you know that by offering an extended warranty as part of your proposal gives your customers peace of mind that their new system, that is such an integral part of their comfort, would not cost them anything to repair should the need arise?

American Standard supports their Dealers with an exceptional "Extended Warranty" program covering labor and parts (including your mark-up) for 10 years on a complete system and 15 years on a furnace.

### Keep An Eye Out For Mike Denison, Your New American Standard Regional Manager!

His background is in Dealer Service and as such knows what you need to do to sell a job successfully. His next trip will be the week of October 24. If you would like to meet him and learn some of his sales tips, contact your TM or Branch and say you would like to meet with him!
